Banner space terms and conditions:

- Banner advertising is payable in advance.
- One calendar month notice is applicable on banner space not booked for a specific period.
- Banner advertising includes the individual listing of all your therapists, but it is not mandatory that you do list them individually. It would be better for business though. Listing therapists does require an evaluation massage.
- The banner must be in a .jpg format. You are responsible for the supply of a suitable banner
- Included in this advertising is the option of free listing of your massage therapists on Massage.co.za as subscribing therapists. For this benefit it is a requirement that all therapists are listed. No monthly free massages will be applicable. We will require an upfront evaluation massage to be done. We strongly recommend that you make use of this option.
- We agree to accept a proportional payment for the first month provided that you commit to advertise the next month as well.
- We will also need a URL to take the users of our site to when they click on the banner. It is important for you that you ensure that this page is the most appropriate page to convert the clients to support your business. We recommend your telephone/cell phone contact details very clear and close to the top left of this page.
- You agree that the URL given will function during the period while advertising with Massage.co.za

- We will supply you on a monthly basis with the number of click through' s to your website – you are encouraged to confirm this through the use of Google Analytics. (From a business perspective it is essential that you know the source of your website traffic)
- You are responsible to supply us with an acceptable graphic to be used. This should either be 180 x 240 pixels (or 180 x 600 pixels - if applicable – Portrait orientation).

1 August 2021 version

- As the banner becomes part of the Massage.co.za site we reserve the right to not allow a graphic if we deem it not suitable. Although we are open minded we do our best to ensure that the website does not become seedy. For that reason total nudity or the exposure of genitals and/or female nipples in the banner or simulation of sex is not acceptable. So also overtly sexual nuances in words or within the graphic. These sentences though are an indication only; the overall requirement is that it must be in good taste and must reflect something of a massage theme
- Please note that we guarantee to show your banner only 20% of the time in your selected area. (In other words we reserve the right to sell 5 banners in a particular spot in a particular area.) Practically speaking you will find that we currently do not have other advertisers and that you will probably get at least 50% of the spot for quite a long time. We will give you notice if the 50% situation is going to change at least a month prior to implementing it.

Taking of photo's for Massage.co.za

- The same rules as for the banners apply to photos: Total nudity or the exposure of genitals and/or female nipples in photos or the simulation of sex is not acceptable. So also overtly sexual nuances in wording. These sentences though are an indication only; the overall requirement is that it must be in good taste and preferably must reflect something of a massage theme.
